Screwed in Mount-Plate

M3x8mm (Q'ty:6)

#### Mounting Screw : for Pole mount adaptor

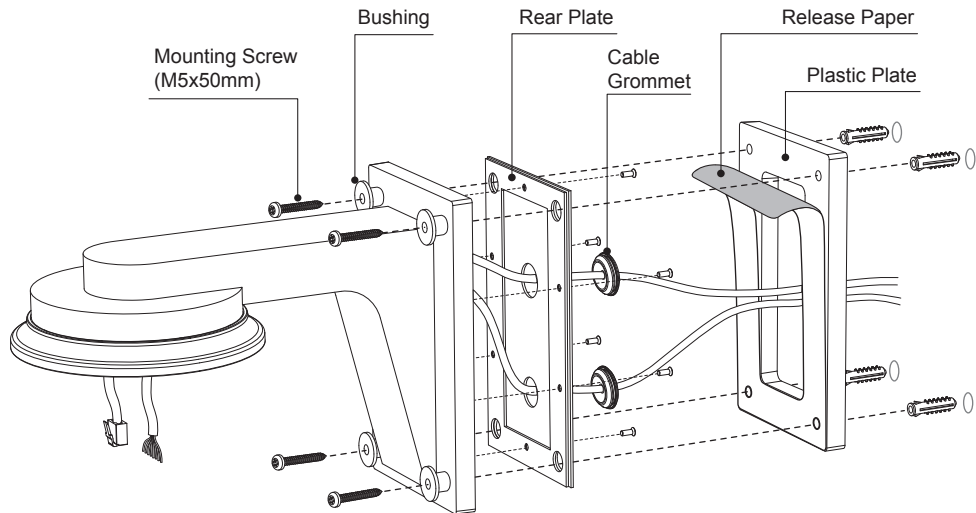

M6x30mm (Q'ty:4)

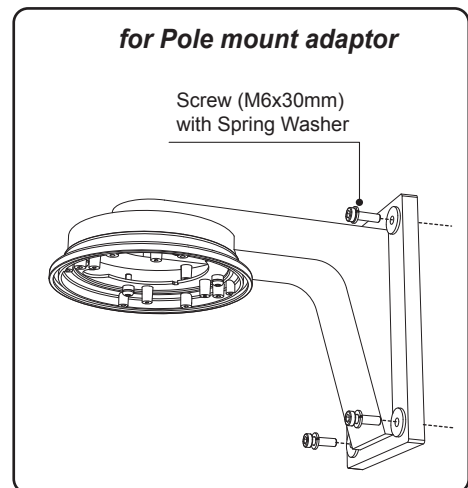

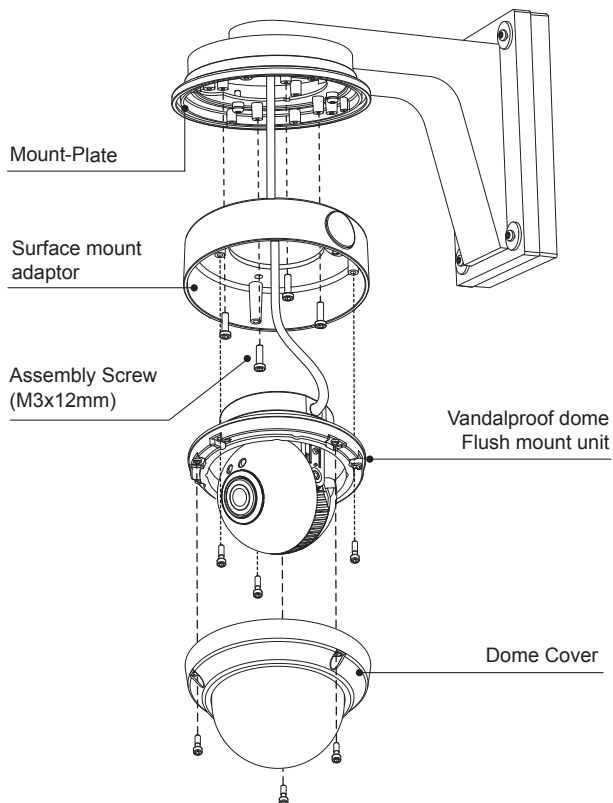

Spring Washer (Q'ty:4)

## INSTALLATION

1. Locate the mounting template at the installation position and drill the wall.
2. Remove the release paper of plastic plate and attach to rear plate of the bracket.
3. Route the power and BNC/LAN cables through bracket plates and grommets as illustrated.
4. Place the mount bracket on pre-drilled position and fix it through using mounting screws.

5. Open the dome cover by loosening screws.
6. Affix the surface mount adaptor to the mount plate using the assembly screws (M3x12mm).  
Assemble vandalproof dome flushmount unit to the surface mount adaptor.
7. Set the camera's viewing angle and adjust zoom&focus.
8. Put the dome cover to the dome unit and tighten screws.

\* The vandalproof dome and surface mount adaptor are not included in this package.
