Name	LCD computer privacy filter	Use for	Laptop, Notebook, Monitor
Type	Anti-peep, durable	Package Size	340*546mm
Material	PET material	Thickness	0.3~0.7mm

UV Proof

It can prevent about 70%-80% UV to protect your eyes.
It can cut blue light as well.

Safety

You can enjoy your private texts and check your bank account and sexy pictures at any time and anywhere and public freely.
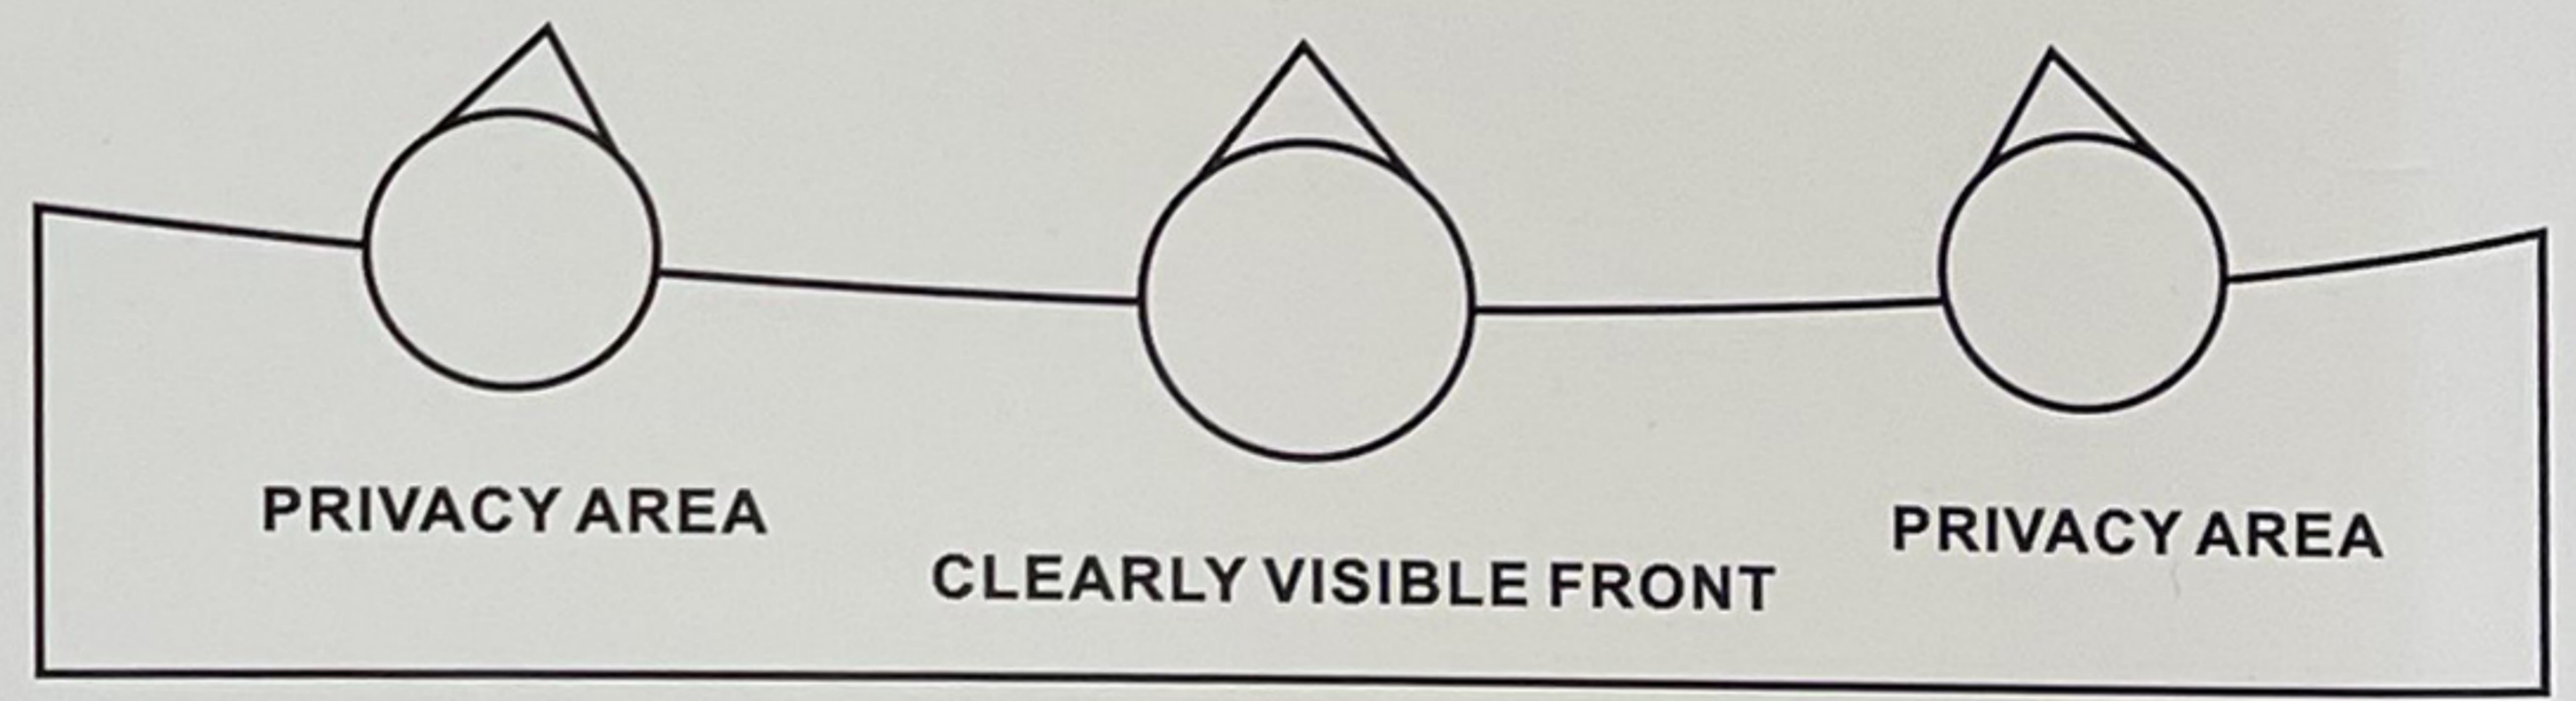

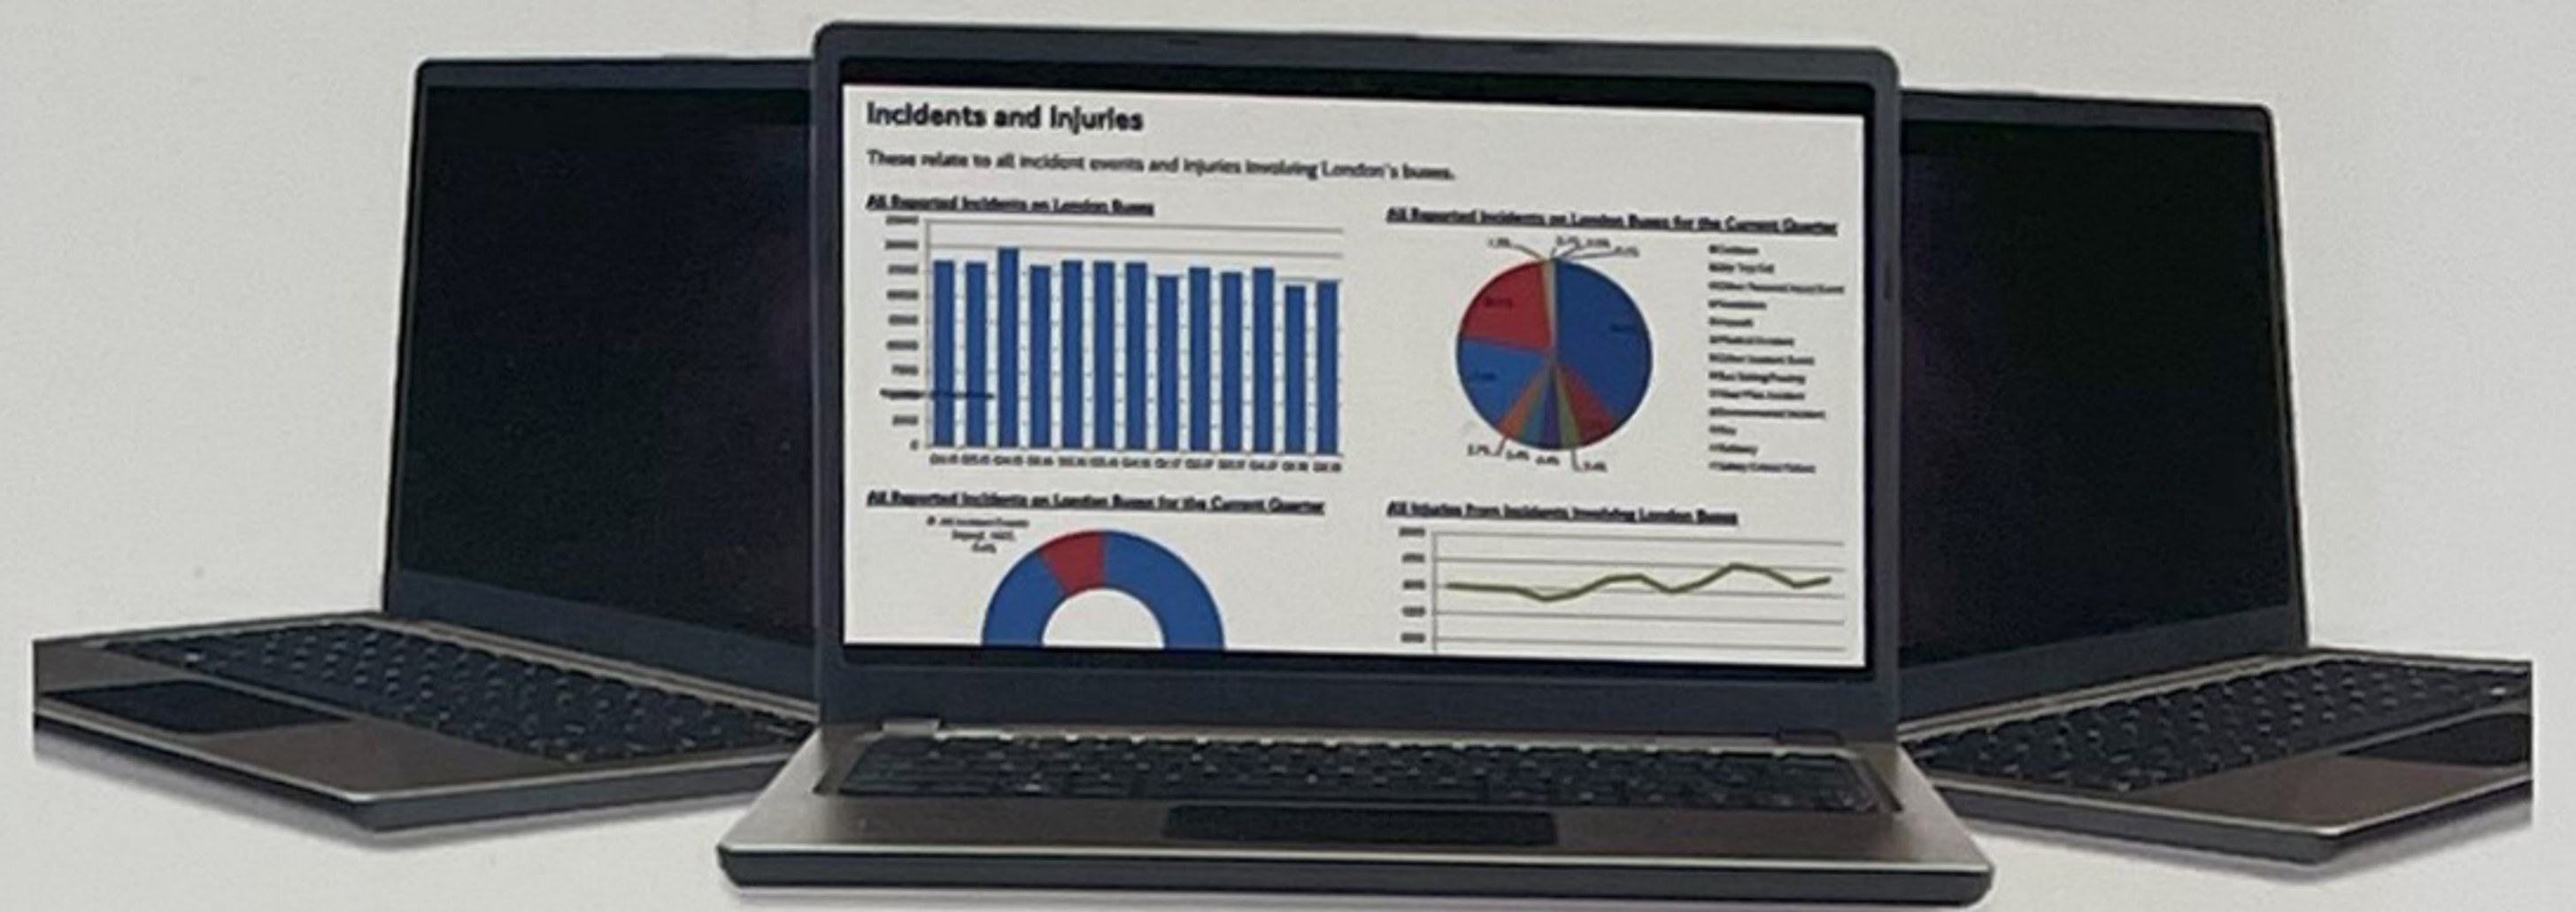

Anti-scratch

This product can prevent scratch, soiled, dust, and fingerprint to protect your LCD screen from external damages due to its super anti-rub coat dispose.
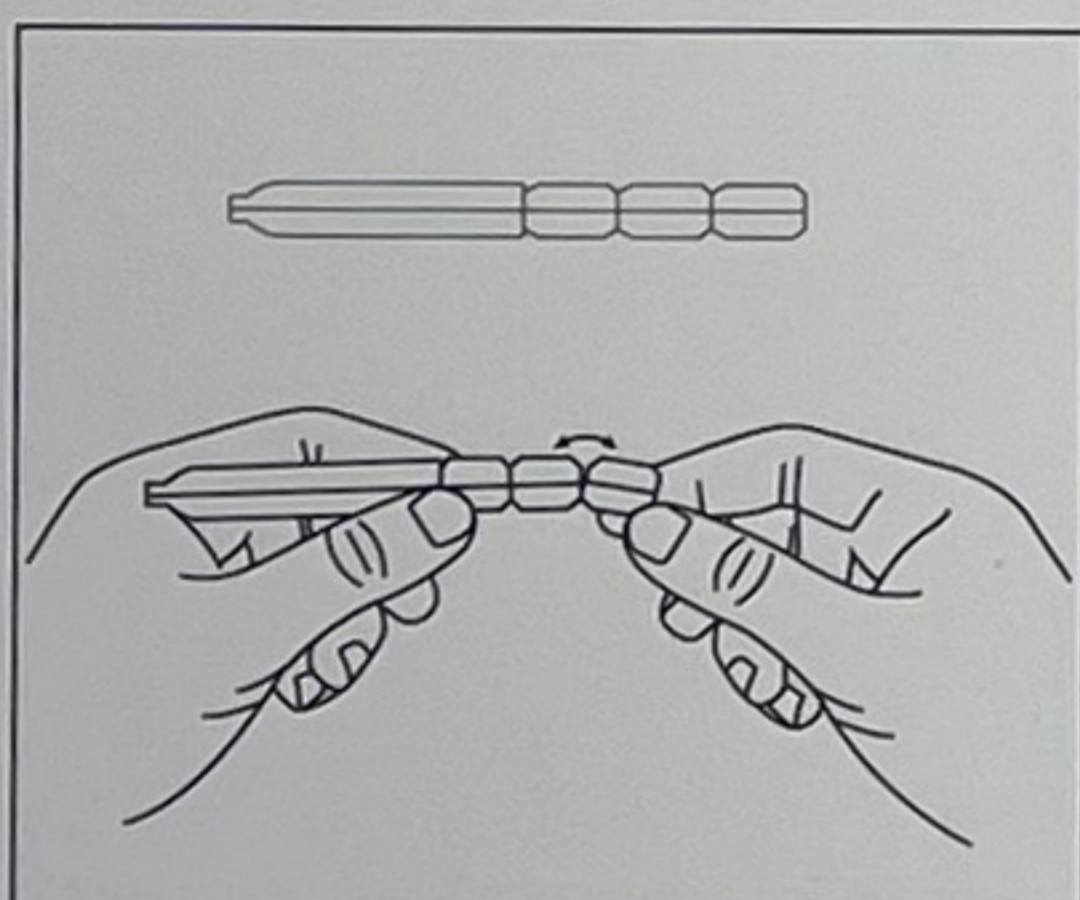

Anti-peeping

When the LCD screen is adhered with privacy film, just the people who are in front of the screen can see the information clearly, as for others who are on both sides, they can not see any information.
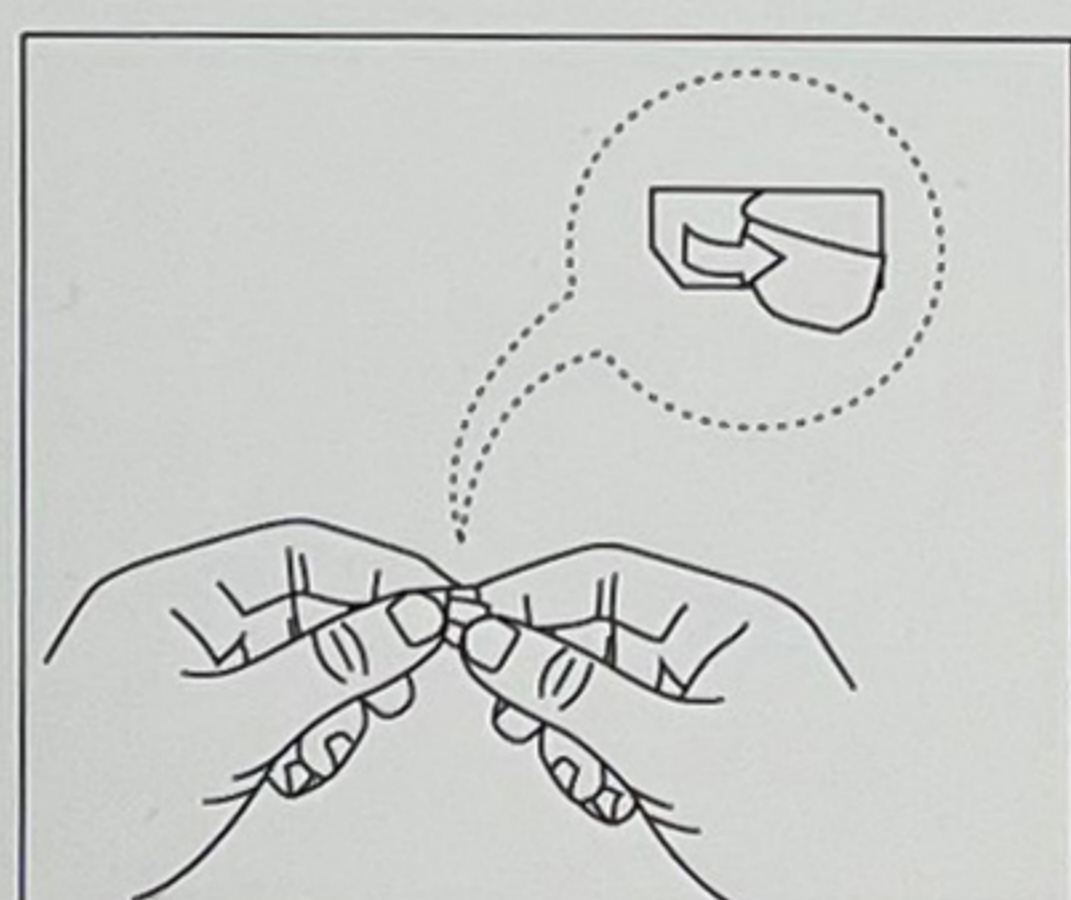

Professional privacy guard

PRIVACY AREA   CLEARLY VISIBLE FRONT   PRIVACY AREA

Installation option1

1. Remove and separate the transparent plastic tabs.

2. Peel off the protective film from each piece.

3. Place the adhesive side of the tabs on the frame edges of the monitor.

4. Insert privacy guard between the tabs and monitors.
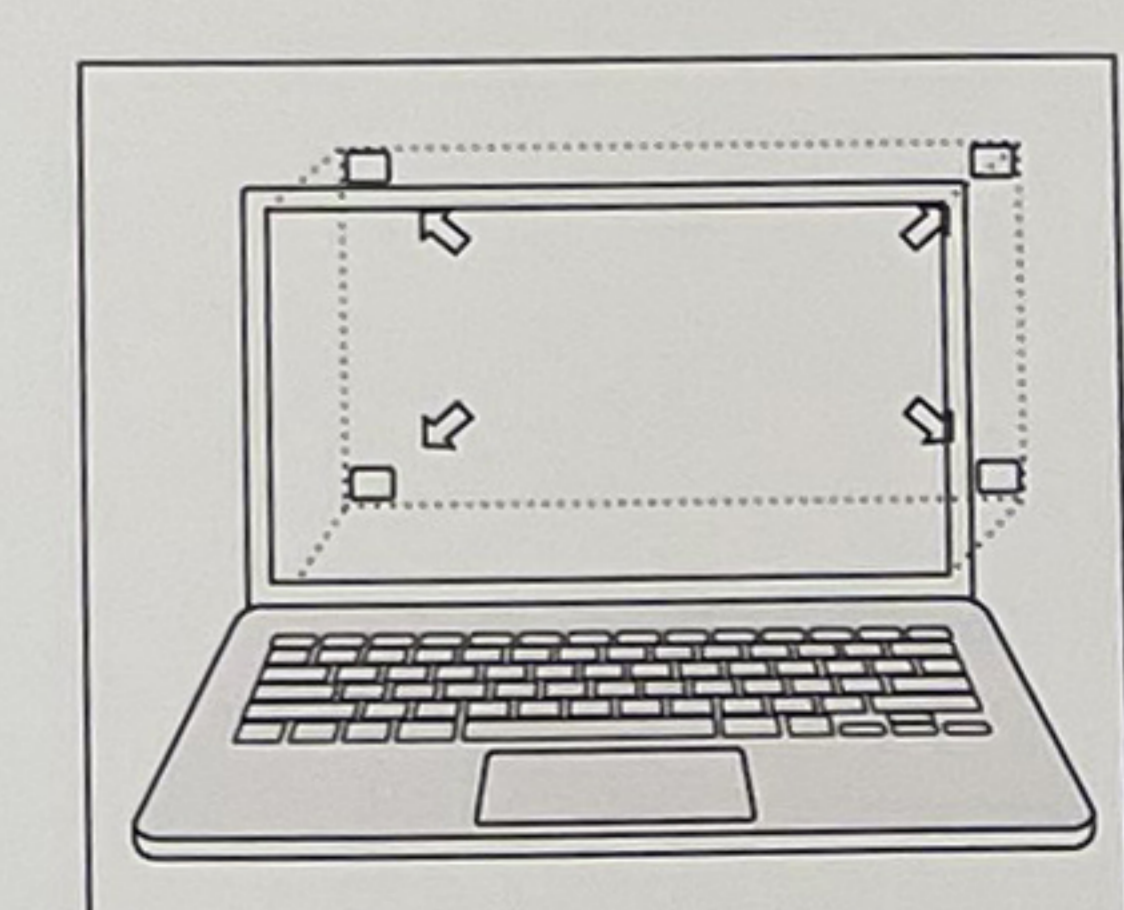

Installation option2

1. Separate the double side adhesive paper.

2. Stick the adhesive near the corner of the privacy guard.

3. Peel off the double side adhesive protect layer lightly:

4. Place the privacy guard onto the screen carefully.
