SAFE & EASY

AFFORDABLE BURGLARY PROTECTION FOR SMALL BUSINESSES

eneo Safe & Easy is the flexible, all-round carefree video security solution especially designed for the requirements and budgets of small businesses. High-resolution video images, along with an easy-to-use, app-based user-interface, provide shop owners with the full overview of their selling and working spaces. Anytime and anywhere. And they considerably reduce the risk of burglary and shoplifting at low acquisition and overall operating costs.

DETERRENCE AND INVESTIGATION

The compact security solution protects retailers from burglary and allows for the investigation of incidents. eneo Safe & Easy is reliable, flexible and easy to operate even for non-professional users. The live images and recordings from the selling and working spaces can easily be viewed on a smartphone or tablet – the solution does not require a professional monitor. The app's intuitive navigation ensures a convenient user experience.

SIMPLY SAFE

The eneo Safe & Easy IP video cameras deliver first-class quality images (4 megapixels) and come with an array of expedient features. With their compact design they are particularly recommendable for the use in limited spaces. Video analysis functions such as area monitoring and motion detection enable automatic alarm notifications via email to the user's smartphone or a tablet.

SCALABLE SOLUTION

The video is recorded on a four or eight-channel network video recorder, which saves the video data at full refresh rate with a resolution of 4 megapixels per channel. The recorders are equipped ex-works with 2TB or 4TB internal memory. If necessary, the system can easily be expanded with additional cameras and an even larger recording solution. As with all eneo Safe & Easy products, all required components can be obtained from VIDEOR.

PLAY IT SAFE: INTEGRATED GDPR FUNCTIONS

The integrated GDPR functions of the eneo Safe & Easy network recorders support users in complying with the European General Data Protection Regulation (EU GDPR). These include inter alia an automatic password cycle and freely definable storage times for each channel. As soon as the purpose of the video storage is fulfilled, the data is automatically deleted at a specific date determined by the user.

Cameras and recorders:

Create customised solutions for your clients with the individual **eneo Safe & Easy** units.

IEB-64M2812M0A | Art.-Nr. 218032
1/3" Network Camera, Day&Night, 2592x1520,
H.265, Infrared, 2.8-12mm, PoE, IP66

IEB-54F0028M0A | Art.-Nr. 225714
1/3" Network Camera, Day&Night, 2592x1520,
H.265, Infrared, 2.8mm, PoE, IP66

IED-64M2812MBA | Art.-Nr. 218033
1/3" Network Dome, Day&Night, 2592x1520,
H.265, Infrared, 2.8-12mm, PoE, IP66

IED-54F0028MBA | Art.-Nr.: 225713
1/3" Netzwerk-Dome, Tag/Nacht, 2592x1520,
H.265, Infrarot, 2,8-12mm, PoE, IP66
